

A large military transport aircraft, a C-17 Globemaster III, is shown in flight against a clear blue sky. The aircraft is white with dark grey accents and is viewed from a low angle, showing its four engines and high-wing configuration. The tail features the text 'AFRC', 'MAXWELL', and '99101'. The fuselage has 'U.S. AIR FORCE' and '9101 908 AW' written on it. The wing has 'USAF' on it.

Strategic Turn-Key Solutions for Military Aircraft Maintenance

We don't just supply parts, we think outside the box.

AIRCRAFT PARTS AND SERVICES

With Non-Stop Service Worldwide

OVERVIEW

Militaries that operate USA origin aircraft rely on NAS for much more than aircraft spare parts. NAS's services commence at the planning stage and never stop until the aircraft is returned to service.

Located in Los Angeles, USA, NAS has been in business for more than 25 years. NAS's turn-key "nose to tail" maintenance support solutions make NAS the ultimate choice for militaries looking to save time, money and manpower. Rely on NAS for non-stop service worldwide.

Service Above and Beyond

We've broken the parts barrier and taken military aircraft maintenance support to a whole new level.

Quality Is Our Bottom Line

Our accredited Quality Assurance Program ensures that our customers get the highest quality, airworthy parts they rely on.

Capabilities that are widely diversified
yet customer specific.

CAPABILITIES

Comprehensive material supply and repair management programs comprised of millions of components, systems and equipment include the following aircraft and engine types:

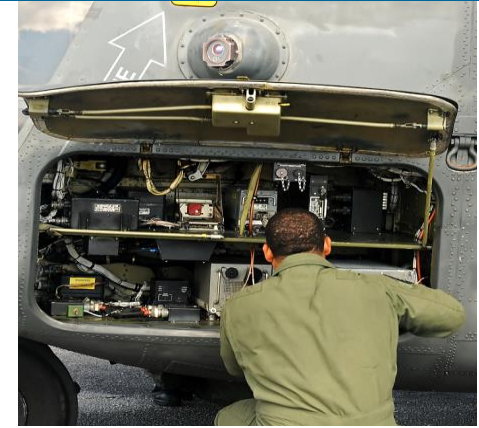

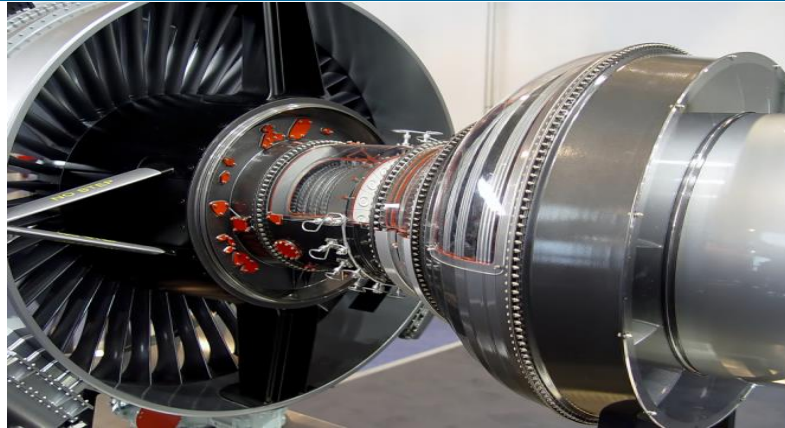

- BAE Hawk (RR F405)
- Beechcraft B200 (PW PT6)
- Beechcraft T-34C (PW PT6)
- Bell 412 (PW PT6)
- Bell UH-1H (LY T53)
- Boeing 737 (CFM56)
- Casa CN-235 (GE CT7)
- Cessna 402B (CN TS10-520)
- Fokker F27 (RR Dart MK532)
- Fokker F28 (RR Spey 555)
- General Dynamics F-16 (GE F110)
- Lockheed C-130 (RR T56)
- Northrup F-5 (GE J85)
- Pilatus PC-7 (PW PT6)
- Pilatus PC-9 (PW PT6)
- Saab 340 (GE T700)
- Sikorsky S-61 (GE T58)
- Sikorsky S-70 (GE T700)

PRODUCTS

Millions of ready to deliver spare parts include engines and engine components, avionics and communication systems, power and control systems, pneumatic and hydraulic items, electrical parts and systems, structural items, ground support equipment, tooling, consumables and much more.

CUSTOMER DESIGNED PROGRAMS

Customer designed programs and services include:

- Engine repair management services
- Component exchange programs
- Consignment inventory
- Kitting programs
- Leasing programs
- Power by the Hour programs
- AOG support

REPAIR AND OVERHAUL MANAGEMENT SERVICES

NAS provides repair and overhaul management services covering a wide spectrum of components including:

- Engines
- Brakes
- Landing Gear
- Communication Systems
- Avionics and Cockpit Components
- Cabin and Galley Equipment
- Emergency Equipment
- Electromechanical Components
- Structural Components
- Hydraulic Components
- Pneumatic Components
- Accessory Gear Boxes

QUALITY CONTROL & CERTIFICATIONS

ISO 9001:2008 certified with compliance to FAA AC00-56A ensures that customers receive quality product with required certifications.

With more than 99% of deliveries passing customer's inspections for more than 25 years, NAS's value added services are in demand and often surpass the highest expectations.

Paperwork provided with NAS's parts include FAA 8130 tags, JAA Form 1, OEM Certifications and others as required. NAS ensures that all parts are traceable to meet our customer's requirements.

NAS's ISO Certification
